

Inter-District Waste Tire Management Program

Providing Waste Tire Disposal and Recycling Service to 9 Counties in Central Arkansas in Accordance With the Arkansas Statewide Solid Waste Plan

- Collected and processed over 780,000 tires in 2012 including passenger tires, tractor-trailer tires, and specialty, off-road tires.
- Expanding to accept large, off-road tires (e.g. farm and earthmover tires) by 2014
- Working to increase recycling percentage with larger quantities of playground rubber (pictured below), landscape mulch, and crumb rubber (e.g. for use in asphalt) within 3 years
- Working to decrease landfill usage from 11% in 2012 to less than 10% in 2013
- Expanding website and developing newsletter to more fully serve all Inter-District residents and businesses by 2014
- Developing district-wide public education campaign utilizing various media outlets in central Arkansas by 2014
